

Alliance of Patients' Organizations Singapore (APOS)

(A) Background of APOS

The Alliance of Patients' Organizations Singapore (APOS) is a transformative platform that envisions **patients-as-partners** in the Singapore healthcare system. Our mission is to enhance patient-centered healthcare in Singapore by actively collaborating with patients' organizations, advocating for patient-centric policies, promoting patient engagement, and providing accessible education to patients.

APOS will work closely with other stakeholders, namely the healthcare providers, research organizations, industry partners, philanthropic organizations, Ministry of Health (MOH), Centre of Regulatory Excellence (CoRE), Agency for Care Effectiveness (ACE), and the World Health Organization (WHO). By actively exchanging ideas and participating in collaborative projects, patients will be co-creating healthcare of the future in Singapore.

Through these strategic partnerships and educational programs, APOS aims to empower patients to actively participate in their healthcare journey by contributing ideas for improved patient outcomes, better technologies, as well as higher quality of care. In doing these patients will co-create a truly patient-centered healthcare system.

Alliance of Patients' Organizations Singapore (APOS)

Vision

OUR VISION is to enable all patients to have access to holistic support in their end-to-end patient journey, by facilitating collaboration among stakeholders in the healthcare ecosystem in Singapore and the region.

Mission

OUR MISSION is to **INSPIRE**

INSPIRE = Identify, Negotiate, Support, Partner, Introduce, Respond, Enable.

We aim to inspire person-centered healthcare by playing different roles in different situations.

- Identify** gaps in current healthcare operating model from a patient organization's perspective
- Negotiate** with different healthcare stakeholders to drive joint efforts to resolve key patient hurdles, and find common solutions
- Support** patients' organizations to undertake patient advocacy for a seamless person-centered healthcare system
- Partner** with healthcare stakeholders to co-design processes and co-produce content for various purposes
- Introduce** different healthcare stakeholders to encourage a spirit of collaboration and exploration of mutual opportunities to drive person-centered care
- Respond** to patients' needs identified via patients' organization surveys, by communicating the findings to relevant stakeholders to advocate for joint resolution
- Enable** multi-stakeholder collaboration around a common patient problem to encourage person-centered care

(B) About APOS Membership

We are inviting your organization to join APOS for a complimentary three-year membership.

By becoming a member of APOS, your organization will:

➤ **Shape the Future of Patient Engagement:**

- Collaborate with local healthcare leaders across diverse stakeholder groups to drive meaningful change in patient engagement.
- Contribute your organization's unique insights to identify challenges and develop effective solutions.

➤ **Empower Your Team: Building Capacity and Capability**

- Collaborate on pilot programs, co-create solutions, and share industry best practices

➤ **Amplify your voice**

- Be part of a united movement to ensure patients' voices are heard and their needs addressed
- Harness the power of collective advocacy to drive change
- Join a collective group of passionate patient advocates working together to create lasting impact.

➤ **Collaborate and expand your network**

- Connect with like-minded advocates and organizations across Singapore
- Gain valuable support and resources to advance your initiatives and strengthen your impact

Join us today and be a catalyst for positive change in patient engagement!
